

Book packs 2021

Dear Parents and carers

Book packs in 2021 will be slightly different from previous years. 2021 book packs will include significantly subsidised Mathletics and Reading Eggs subscriptions for all students and specialised workbooks for literacy groups. It will not include any stationary.

Parents and carers are asked to provide stationary for their students, with recommended product lists for each stage attached.

Book packs for all years will cost \$60.

Reading Eggs and Mathletics subscriptions allow teachers to set work flexibly for students, as well as provide options for families to extend learning or target specific focus areas at home. Students will be using these subscriptions both in class and as homework.

For families to purchase these subscriptions without the school subsidy, the price is around \$179 for both products, making this a massive saving for our families.
